November 12th, 2003
The Everest Peace Project and Rotary International.

Today expedition leader Lance Trumbull and climbing leader Rob Chang spoke at one of the local Rotary International meetings here in the San Francisco Bay Area--the Mountain View Rotary Club to be exact (Both Lance and Rob were born in Mountain View California). "Rotary promotes world peace and understanding through local and global service projects." The EPP was there speaking to like-minded individuals to let them know about our Climb for Peace. While in Nepal, Lance had the opportunity to speak at several of its clubs there as well. Lance has spoken to Rotarians across the world about The Everest Peace Project. Hopefully, if things go to plan - Lance and Rob will soon be speaking to Rotary meetings across the United States.
